

FULL APPLICATION – RESEARCH FUNDING

The following Full Application relates to competition number:

APPLICANT INFORMATION – INVESTIGATORS:

Principal Applicant

Last name:

Title/position:

Department:

Phone number:

First name:

Affiliation:

Province/territory:

Email address:

Co-Investigator (to be contacted in the absence of Principal Applicant)

Last name:

Title/position:

Department:

Phone number:

First name:

Affiliation:

Province/territory:

Email address:

Please list all other investigators and their affiliations:

Co-Investigator	Affiliation

Please list all other study personnel and their affiliations:

Study personnel	Affiliation	Role on study

GENERAL PROJECT INFORMATION:

Study title:

The study presented below is:

- Currently ongoing
- A new study proposal

If study is currently ongoing, please indicate REB status of current study:

If study is currently ongoing, please outline additional sources and amounts of funding:

To what extent do you feel the results from this study will contribute to the [Atlas Institute’s Strategic Pillars](#)?

Strategic Pillar	Not at all	Some extent	Great extent	May in the future
Prevent and prepare				
Improve care and support				
Engage and inform				
Expand what we know				

Study type:

Interventional *(check all that apply)*

Pilot trial

Open-label

Single-blind

Double-blind (or more)

Randomized control (RCT)

Other:

Observational/No intervention *(check all that apply)*

Case control

Cohort

Cross-sectional

Longitudinal

Qualitative (focus groups, interviews, etc.)

Other:

Study objectives *(max 150 words)*

Study lay summary *(max 300 words)*

Main study outcomes (please also specify how these outcomes will be measured) (max 300 words)

Study design and methodology (Please explain full project methodology) (max 350 words)

Study participants

Participants included in this study will be (*check all that apply*):

CAF Veterans

RCMP Veterans

CAF Family members

RCMP Family members

CAF serving members

RCMP serving members

Other:

Please specify your study population (*inclusion criteria, exclusion criteria*) (max 150 words)

Sample size (*include power calculation where appropriate*) (max 150 words)

Recruitment (max 100 words)

Although the successful applicant is responsible for recruitment, if necessary, the Atlas Institute can leverage its network to support the project team with recruitment.

Will you require support from the Atlas Institute for recruitment?

Yes No Unsure

If yes, please describe the type of support required:

PROJECT MILESTONES AND TIMELINE:

Estimated project duration (in months):

Milestone	Time to completion from project start date (months)

PROJECT BUDGET:

Total funding required for the proposed project:

Please include the completed *Budget Template* document along with this application.

OTHER PROJECT INFORMATION:

Sex and Gender-Based Analysis Plus (SGBA+)

The Atlas Institute has a specific focus on identifying the unique health needs related to post-traumatic stress disorder and related mental health conditions of the diverse Canadian Veteran and Family Member population.

Please describe which SGBA+ or intersectionality factors will be considered in this research project (check all that apply):

Sex

Geography

Education

Gender

Culture

Race

Age

Income

Ethnicity

Disability

Sexual orientation

Religion

Other:

How will the above SGBA+ factors be considered?

Lived and living expertise engagement

The Atlas Institute's work is rooted in the experiences of Veterans and Families. We are committed to being a leader in equitable, inclusive and relevant research; we know that Veterans and their Families have the lived and living expertise that is vital to ensuring that our research is meaningful and successful. All projects funded by Atlas **must** include lived and living expertise as part of the research process.

Based on the categories described in the *Lived Experience Research Protocol* document, what level of engagement will Veterans and/or Family Members have in the proposed study?

Advisory Integrated Co-led

Please explain the chosen level of engagement:

If desired or unsure how Veterans and/or Families will be included in the research process, the Atlas Institute can support the engagement in various ways (e.g. convening advisory groups).

Will you require support from the Atlas Institute for Veteran and/or Family Member engagement?

Yes No Unsure

If yes, please describe the type of support required:

Knowledge Mobilization

Knowledge mobilization is the practice of making information and knowledge widely available, accessible and usable. At Atlas, we use knowledge mobilization to build awareness and understanding of issues relating to the mental health and well-being of Veterans and Veteran Families. All projects funded by Atlas must include knowledge mobilization activities of the results and will participate in Atlas led knowledge mobilization and communication activities.

Please describe all knowledge mobilization activities that will be conducted with the results of this research project (e.g. infographics, publication lay summary, etc.):

Impact of study

Please explain how this study will contribute to improving the well-being of Canadian Veterans and/or their Families:
